

REMARKS:

This Amendment is filed to make various editorial changes to the above-identified patent application.

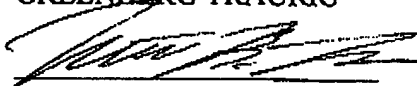

More particularly, the title of the application has been changed to "METHODS AND SYSTEMS FOR INTERCHANGING DOCUMENTS BETWEEN A SENDER COMPUTER, A SERVER AND A RECEIVER COMPUTER". This title more accurately reflects the claimed invention.

In addition, certain text found at pages 38 and 39 of the specification has been amended. Of note, these amendments are of an editorial nature and relate to description of the invention based upon the textual disclosure of the invention found in the originally filed specification rather than based upon any Figures. In this regard, the amendments do not add any new matter.

Entry of this Amendment and favorable action thereon is earnestly solicited.

Dated: October 29, 2004
